

5-Logging in to Archipad

Posted on April 27, 2026 by Smaheine

Objective: Discover how to access your Archipad account on all your devices.

1. Open the Archipad application or go to <https://cloud.archipad.com/>
2. Click on “**Log in**”.
3. Enter your email address and password.
4. Click on “**Log in**” to access your list of projects.

The screenshot displays the Archipad login interface. At the top, the Archipad logo is centered. Below it, a red button labeled 'Se connecter' is prominent, with a link 'Créer un compte' underneath. A footer link reads 'Vous avez un problème ? Contactez le support'. The main section, titled 'Se connecter', contains two input fields: 'E-mail professionnel' and 'Mot de passe' (which includes a toggle for password visibility). A link 'Mot de passe oublié ?' is positioned below the password field. A second red 'Se connecter' button is at the bottom of this section. Below the button, a link asks 'Vous n'avez pas encore de compte ?' followed by 'Créer un compte'. A final footer link at the bottom states 'Vous avez un problème ? Contactez le support'.

Tip: If you forget your password, use the “Forgot password?” link to reset it.
