

Can students and teachers benefit from a free license?

Posted on July 29, 2026 by Smaheine

Yes. Archipad offers a free license to students and teachers to promote the use of digital technologies in the construction sector.

To benefit from it:

1. Create your Archipad account.
2. Send us an email with proof of your status (student ID or professional card).

Once your request is validated, your license will be activated free of charge for one year, with no feature restrictions.

This license is renewable each year, upon presentation of valid proof of status.
