Delete Plan Segmentation

Posted on July 30, 2026 by Smaheine

Available on

- **Archipad Web**
- **Android** *(same steps as Web version)*

You can delete an existing segmentation to return to the initial Plan display.

Delete the segmentation

1. Open the segmented Plan.
2. Go back to the segmentation Screen.
3. Click **Delete**.

The segmentation and detected Regions are removed from the Plan.
