

Discover the New Profile Page in Archipad

Posted on April 1, 2026 by Smaheine

Archipad's profile page has been optimized to deliver an even smoother and more intuitive user experience, regardless of the device you're using. This update brings an improved interface and better-organized features for simplified account management.

Accessing the Profile Page

To access your profile page:

- Click on your **Avatar** in the top right corner of the interface.
- A dropdown menu will appear: select the **"Profile"** option.

What's Changed

We've redesigned the profile page to be more intuitive and accessible.

Here's what you'll find:

1. **"Information" Section**

This section allows you to easily update your general information, such as your name or email address, in a simplified interface.

2. **"Security" Section**

Password management is now centralized in this section, making updates quick and secure.

3. **"Account Deletion" Section**

A dedicated section for account deletion has been added to clearly identify this feature and avoid any confusion.

Why This Update?

- **Better Accessibility:** The profile page adapts perfectly to all devices (Laptop, iPhone, iPad), for smooth management wherever you are.
- **Improved Interface:** Sections are better structured for quick access to essential features.
- **Optimized User Experience:** Navigate with ease thanks to a clear and intuitive menu.

We're confident that this update will make managing your account even more enjoyable. Explore your new profile page and take advantage of these improvements!
