

Generate report from a DigitForm

Posted on September 7, 2026 by Smaheine

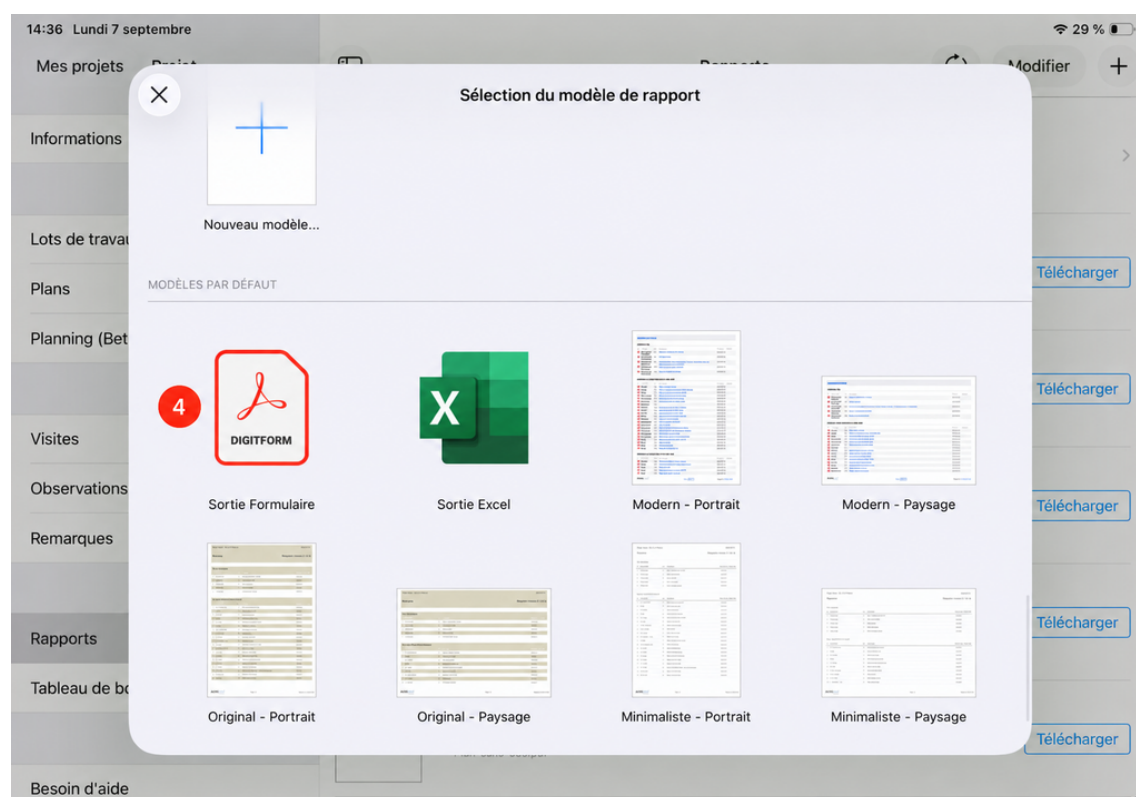

Available on

-  Archipad App on iPhone and iPad

Generating a report from a DigitForm is only available from the Archipad App.

Generate report

1. Open the relevant project.
2. Go to the **Reports** menu.
3. Tap the **+** button.
4. Select **Form Output**.

5. Select the relevant form definition.
6. Choose the completed form to include.

7. Generate the report.

Once the report is generated, you can print it or share it as a PDF.
