

Mark an Observation as Solved

Posted on August 12, 2026 by Smaheine

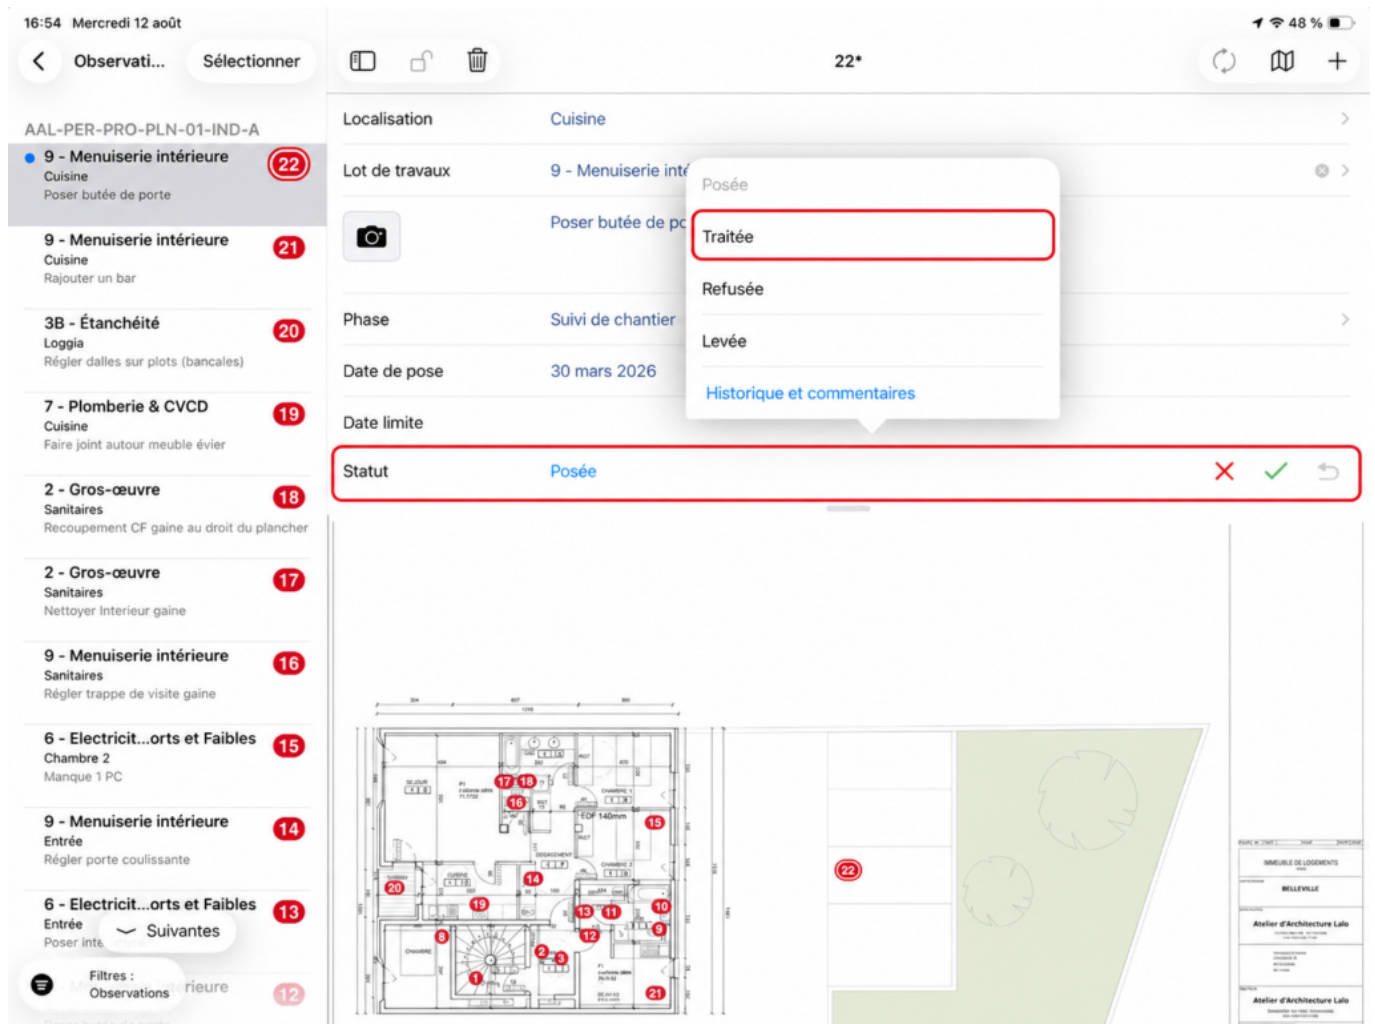

Available on

-  **Archipad Web**
-  **Android** (*same steps as the Web version*)
-  **iPhone and iPad**

The **Solved** Status indicates that the work related to the Observation has been completed and is ready for verification.

Mark an Observation as Solved

1. Open the relevant **Observation**.
2. Tap the **Status** Field.
3. Select **Solved**.
4. Add a Comment or Photo if needed to document the work.

Good to know

Following the standard workflow described in the guide, a **Solved** Observation can then be **Closed** if the work is accepted or **Rejected** if a correction is required.
