

Modify a team member's access level

Posted on July 27, 2026 by Smaheine

If a team member's responsibilities change, you can assign them a new access level. To do this, you must first revoke their access to the project, then invite them again with the desired access level.

Available on

-  **Archipad Web**
-  **Android** (*same steps as the Web version*)

Email	Nom	Société	Statut	Privileges
faissal@bigsool.com	Faissal Bigsool	Bigsool		Administrateur

PROJET PARTAGÉ AVEC

Email	Nom	Société	Statut	Privileges
alexandre.barbier@bigsool.com	Alexandre Barbier	Bigsool		Administrateur
faissal+collaborateur@bigsool.com	Admin Bigsool	Bigsool		Administrateur
faissal+invite@bigsool.com		Bigsool		Invité
romain.gaudel@bigsool.com	Romain Gaudel	Archipad		Administrateur

LOTS DE TRAVAUX UTILISANT ARCHIPAD

#	Lot de travaux	Email	Nom	Société	Statut
6	Electricité Courants Forts et Faibles	demo7@archipad.com		-	
7	Plomberie & CVCD	demo8@archipad.com		-	
9	Menuiserie intérieure	demo10@archipad.com	Olivier Larrat	Laruelle	

Steps

1. Open the project, then go to **Info > Sharing**.
2. In the **Project shared with** section, select the team member in question, then click **Revoke access**.
3. Click the **+** button and enter their email address again.
4. Select the new **access level**, then click **Invite**.

The team member will receive a new invitation with the access level assigned to them.

Note

It is not possible to directly modify a team member's access level. You must revoke their access before inviting them again.
