

Reject an Observation

Posted on August 12, 2026 by Smaheine

The **Rejected** Status indicates that the work checked requires further correction.

Reject an Observation

1. Open the **Observation** in question.
2. Change its **Status**.
3. Select **Rejected**.
4. Add a Comment or Photo if needed to clarify the expected corrections.

Good to know

A Rejected Observation can be marked as **Solved** again once corrections have been completed. Status change options depend on User permissions.
