

Reset Your Archipad Password?

Posted on April 1, 2026 by Smaheine

You can reset your password from the Archipad login page.

Se connecter

[Mot de passe oublié ?](#)

Se connecter

Vous n'avez pas encore de compte ? [Créer un compte](#)

1. From the login page, click on **Forgot password?**.
2. Enter the email address associated with your account, then click **Send me a**

code.

3. Retrieve the verification code received by email, then enter it in the **Verification code** field.
4. Set your new password, then click **Confirm**.

Make sure the email address is valid so you receive the password reset email containing the verification code.

We recommend choosing a strong password and using a password manager to enhance the security of your account.

Good to know

If your account is locked:

After 10 unsuccessful attempts, your account will be automatically locked with the message "Account locked". You simply need to reset your password.
