

# Which Archipad iOS features are available offline?

Posted on June 30, 2026 by Smaheine

Once logged into your account and your project imported, you can use Archipad offline.

Available features include:

- Add contacts
- Import drawings
- Create and view your site visits
- Add and track observations and remarks
- View and generate reports
- View the dashboard

⚠ Once your connection is restored, it is essential to **sync your project** in order to save and transmit all data.
